Our Story

During the pandemic, when retailers and galleries began to shutter their doors, creative business guru Andrea Bogart watched her artist peers lose valuable revenue streams.

Eager to help, Andrea developed Embrace Creatives, an online art gallery and full-service art advising firm to expertly match discerning clients with fine art + objects handcrafted by vetted American creators.

"Embrace Creatives expands our client's idea of what art can be while staying true to their vision and budget."

~Andrea Bogart, lead art advisor and founder of Embrace Creatives
